## **Background**

In 2003 the Federal Government signed into law the Prison Rape Elimination Act (PREA). This law established a set of standards designed to eliminate sexual abuse and sexual harassment experienced by individuals incarcerated in our nation. This law does not focus solely on prison environments as it includes county jails, juvenile detention centers, confinement centers, etc...

As a grade 1 correctional facility in North Dakota, The Heart of America Correctional & Treatment Center (HACTC) has adopted these standards in preventing, detecting, responding to, and eliminating acts of sexual abuse & sexual harassment in our facility. HACTC has zero-tolerance for any form of sexual abuse & sexual harassment.

HACTC investigates all allegations of sexual abuse and sexual harassment and has provided inmates numerous methods of reporting:

- Verbally tell any staff member/contractor/volunteer
- Write to any staff member/volunteer/contractor
- Have a third party make the report by contacting any HACTC staff member in writing or verbally
- Contact a third party by writing or calling (inmates are provided with this contact information)
- Call our confidential crime tip line which is accessible by any inmate phone

Any allegations of sexual abuse will be referred to law enforcement for investigative purposes. Any person found to engage in a criminal act will be prosecuted to the fullest extent of the law. Any staff member found to violate HACTC policy regarding PREA will be subject to disciplinary sanctions up to and including termination from employment.

This document serves as an annual review to assess and improve the effectiveness of sexual abuse prevention, detection, response policies, practices, and training at HACTC pursuant to: § 115.88 Data review for corrective action.

(a) The agency shall review data collected and aggregated pursuant to § 115.87 in order to assess and improve the effectiveness of its sexual abuse prevention, detection, and response policies, practices, and training, including by:

- (1) Identifying problem areas;
- (2) Taking corrective action on an ongoing basis; and
- (3) Preparing an annual report of its findings and corrective actions for each facility, as well as the agency.

(b) Such reports shall include a comparison of the current year's data and corrective actions with those from prior years and shall provide an assessment of the agency's progress in addressing sexual abuse.

(c) The agency's report shall be approved by the agency head and made readily available to the public through its website or, if it does not have one, through other means.

### **2025 Efforts/Problem Areas/Corrective Action**

HACTC remains committed to implementing best practices and adhering to the requirements of the Prison Rape Elimination Act standards to address allegations of sexual misconduct of inmates.

HACTC completed their third Federal PREA audit in the summer of 2024. This audit report is posted on our website: [www.piercecountynynd.gov](http://www.piercecountynynd.gov), for review. The on-going efforts of HACTC to establish a zero-tolerance culture are well-documented in this report. We continued this mission in 2025, though no audit activities took place, we continued our effective practices daily.

Review of CY25 allegations finds that allegation totals were significantly decreased from the prior year. We did not investigate any allegations of sexual abuse in 2025. In 2025 we continued to improve our technology with the completion of stage 4 of camera upgrades. HACTC has now replaced all analog devices to digital devices. These devices lead to improved picture/video quality and assist in removing blind spots within the facility.

HACTC continues to utilize audit feedback to guide our daily practices.

We continue to provide training for our staff to ensure they remain current and informed with PREA standards and any new guidance that may be recommended.
